JOHN LYON'S CHARITY

This Young People's Foundation model is the response of John Lyon's Charity to the current pressures on the Children and Young People sector and specifically the issues faced by the voluntary sector in outer London.

Over the past few years, the Charity has become increasingly concerned about the lack of high quality youth provision in these outer boroughs and, via the Young People's Foundations, seek to ensure that what remains is a viable and vibrant youth sector that is sustainable.

The YBF has been formed to help build the capacity of youth services within the Voluntary & Community Sector (VCS) in Barnet, growing more activities and services to support our children and young people (0-25).

Growing and operating a local grants pot

Developing Consortium / Partnerships

**Developing (in partnership with others) a
venue platform**

Impact Monitoring

1

Growing and operating a local grants pot for CYP VCS in the borough, funded through funders & partner contributions, local giving and fundraising.

We will be launching details of our first grants pot on December 1st – check our website and social media for details.

2

Developing Partnerships

- To offer a rich mix of youth activities and services to address local need.
- To be strong enough to win local contracts and other bids.
- To be the vehicle for business / VCS partnerships.
